Lab 6

Bootstrap, Javascript

Assignment 1. Flower Shop

Complete page

Complete the Flower Shop design for both desktop and mobile UI versions using Bootstrap.

Note: use carousel for the featured images.

Assignment 2. Quoted text

Create a string variable with quoted text in it. For example: He said, "I don't know."

Note: To show the string, you can use one of the following methods:

- document.writeln(string);

- console.log(string);

- Create a p tag with ID, document.getElementById("p_tag_ID").innerText = string;

Assignment 3. Confirm Box

Display a confirmation box, and output what the user clicked in console.

Assignment 4. String Interpolation

Create three string variables: title, image, and price.

Use string interpolation to insert these variables into the HTML string of the "Sản phẩm ưa choộng" section (VOW Design).
